# USER MANUAL

Steps:

1. Login Screen

If you already have an account, enter your e-mail and password in the following text fields, and press login, and proceed to Step 3.

-otherwise, press "Sign Up for The Bin" to create a new account.

2. Sign Up Screen

Enter your information in the fields as labeled, select your gender and press the SIGN UP button.
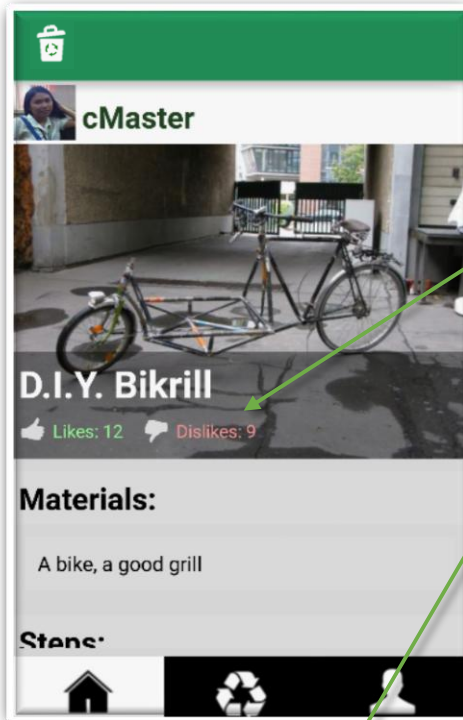

3. Feed

After you Log In/ Sign Up, you'll arrive at the feed, where you can see a list of new submissions; their name, approval rating (ratio between likes and dislikes, higher the number the better), a portion of the item made, and the person who made the submission. **Clicking on an item will allow you to view the item.**

There will be 3 image buttons at a fixed position at the bottom, and those 3 buttons represent the following respectively: **"Home", "Recycle",** and **"Profile".**

You can also submit your own item via the "camera" icon in the upper right, if you don't feel like using the "Recycle" tab.
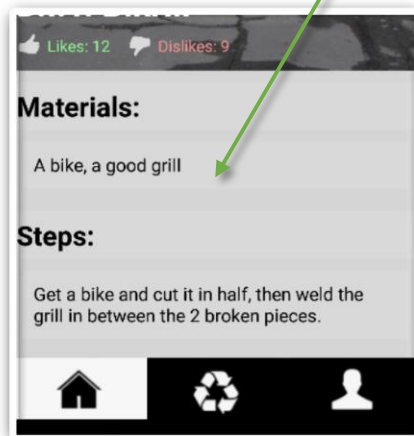

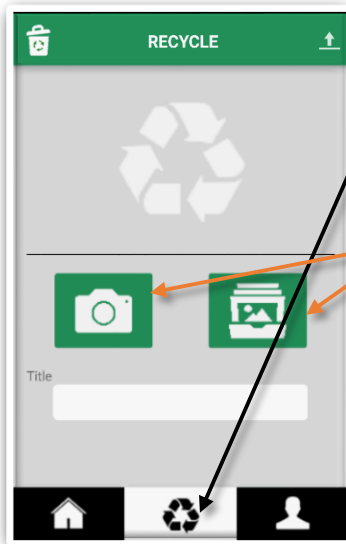

4. Item

Clicking on an item in the feed will bring you to a new screen where you can see details of the item submitted.

You will see the number of likes and dislikes, and you yourself can also like or dislike the item, depending on your judgment, by pressing either the like or dislike icon.

Following, are the materials needed and the steps for making the item. There is also a "description" section below the steps in case the uploader wants to sell an owned product and would provide his mobile number and/or the like.
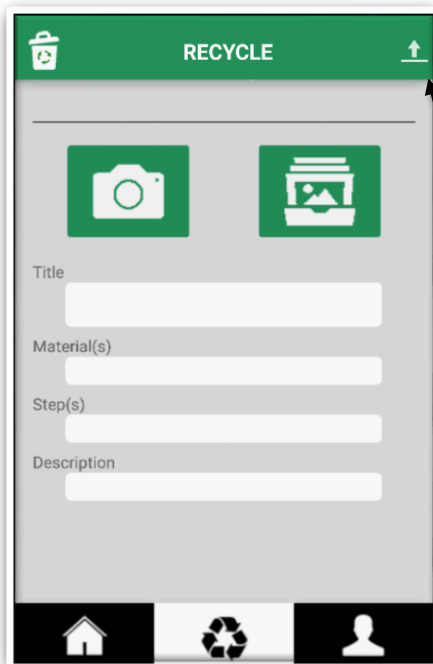

5. "Recycle"

You can submit your own entry by pressing the "recycle" icon

Then, you can either take a picture of your item, or choose a picture from your gallery.

If you scroll down, you'll be able to see text fields for you to enter: the title, material(s) used, step(s) and description.

Once you're done, press the "UPLOAD" button.

It should bring you to the feed and you will be able to see your item.

6. Profile

Pressing the third tab will bring you to your "Profile". Here, you can see recent activity.

You can also change your settings by pressing the "gear" icon.
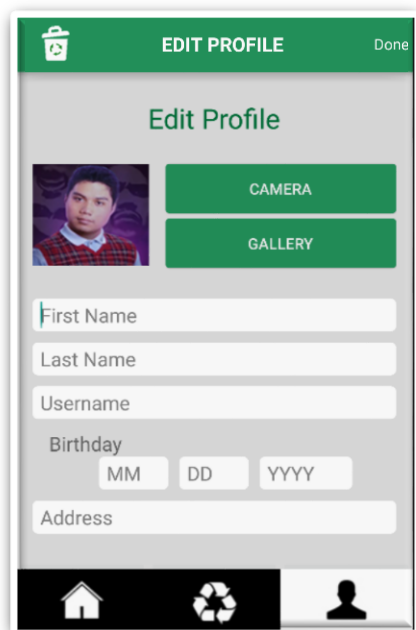

7. Settings

If you pressed the "gear" icon in the profile, it will bring you to the settings. Here, you can log-out, or edit your profile.
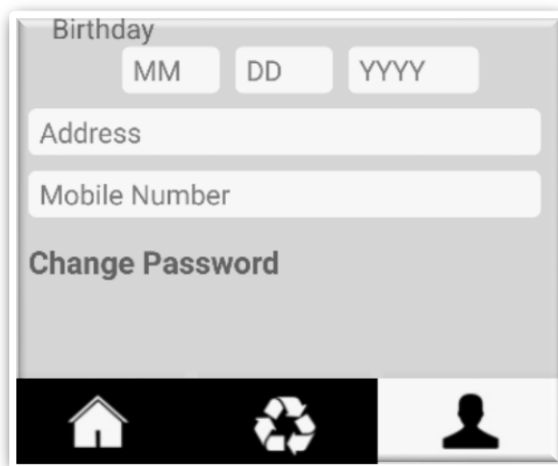

You can log-out by pressing the icon in the upper-right corner, and it will bring you back to the log-in/landing page.

If you press the "Edit Profile" text, it'll bring you to a screen where you can modify some details of your account.

8. Edit Profile

Here, you can change your picture, and your other details.

9. Change Password

If you pressed "Change Password" in the "Edit Profile" screen, you will be brought to this screen.

Enter the required information and press "Done" when finished.
